

# The New York Energy Buyers Forum

Invites you to

## ***Lessons Learned From the 2003 Blackout***

**Thursday, Sept. 25, 2003, 9:00 AM – Noon**

(Refreshments/registration start 9:00 AM; members-only briefing, 11:00 – noon)

The “impossible” happened – again. Some were prepared, others were not, but all learned something from the event. Find out what you can do to better prepare your facilities and people.

From the NY Independent System Operator (ISO), we will hear a wrap-up of what went wrong, and what the ISO is doing to avoid a repeat performance.

Through a series of short “what I would differently during the next blackout” presentations, building managers and engineers will recount their hands-on experiences and what they learned.

**Don't miss this once-in-a-lifetime (we hope) opportunity to pick up tips that could prove invaluable for your buildings and businesses!**

### ***Presenters include:***

- representative from the NY Independent System Operator (ISO) [invited]
- building managers and engineers from some of the City's major facilities
- moderated by Lindsay Audin, Energywiz, Inc.

**LOCATION: Beth Israel Hospital's Philips Ambulatory Care Center (PACC), 2<sup>nd</sup> floor auditorium, 10 Union Square East (Park Ave. So. between 14<sup>th</sup> & 15<sup>th</sup> Streets), New York City**

***Forum members: our members-only briefing will review actions taken during the summer, an upcoming rate case, changes to DG rules, and other important issues. Please attend!***

Admission: Free for NYEBF members, \$50 for non-members. All attendees (including members) please RSVP to the Forum at (212) 419-1919 or [events@nyebf.org](mailto:events@nyebf.org) by Sept. 19. Refreshments will be served. Check out the Forum at [www.nyebf.org](http://www.nyebf.org).
